Neither Crown Nor Accused Able to Impress Jurors  
Denial  
SOME DAMAGING EVIDENCE  
Newsboys and Former Associate Tell Some Things of Minor Value

## DOUBTLY UP FOR TRIAL

TORONTO, Dec. 30.—John Doughty was committed to Magistrate Geo. T. Denison this afternoon for trial on charges of stealing \$10,000, the property of Ambrose J. Small, wealthy theatre owner of Montreal, who was arrested on December 2, 1919.

Doughty has been Ambrose Small's associate for many years, and was small said the Grand Opera House in Montreal, where he was employed, a position was made for Doughty, and he was sent to Montreal at \$10 a week, considerably more than he had been receiving from Small. On the day Small disappeared, Doughty was in Montreal, and he was seen to leave the city on the day Small disappeared. Doughty was seen to leave the city on the day Small disappeared.

Doughty was not heard from again until last November, when he was located in Montreal. He was brought back to Toronto by Detective Mitchell, who was in charge of the case. Doughty was seen to leave the city on the day Small disappeared.

# Lieutenant-Governor Brett To The People of Alberta

To The People of Alberta: I desire to offer you my sincere wishes for your happiness and prosperity in the coming year, and hope that continued success, health, and prosperity will be the New Year's gift to you all.

# PERMANENT COURT ON INTERNATIONAL AFFAIRS PROPOSED

LONDON, Dec. 30.—Twenty-two nations already have signed the protocol of the permanent court of international justice, which is to be established in The Hague.

# A Message for 1921

The end of the year 1920 finds the people of Alberta inspired by a greater faith in the future of their province and a stronger belief that the fullness of its prosperity rests on a stable foundation.

"Here all our ails imperceptibly  
 But better days are nigh;  
 When perfect light shall pour its rays  
 And all those shadows fly."

The ages that have gone, are to be  
 studied for the light, which may be  
 the result of the ages that are present.  
 properly used should be a beacon to  
 guide our thoughts into the future.  
 We can only know in part, and must  
 believe in part. Hence Faith through  
 the ages, has been the great power  
 of our knowledge, becomes the great fac-  
 tor that enables us to move onward  
 and upward, and to see the light and  
 truth. Truth itself can never reach  
 to us, until we be true to it.

D.S.

## NORTHERN ALBERTA PLAY OF LIFE AND LOVE, TIGER ROSE, AT NEW EMPIRE NEXT THURS.

Willard Mack's Great Melodrama, Produced by David Belasco, Has Canadian Actress in Title Role—Stage Effects Familiar to Edmontonians

David Belasco, the wizard of the Northwest Mounted policeman, assistant, will present Willard Mack's greatest and best play "Tiger Rose," a melodrama of life and love and the "mountain" power of that northern region, at the New Empire theatre on Thursday, January 6th. (Greater contrast than that between the "mountain" life of the cities along the great railway and the rugged careers of those who dwell in the nature of the Arctic circle, could not be conceived, and the contrast is vividly drawn in the story of Rose Belton and her love, which is portrayed by Canada's most distinguished playwright, Mack, as given in his story of "Tiger Rose." An aerial view in this section of the "mountain" domain, and one born in the "mountain" Helen Lewis, whom Mr. Belasco with his unique eye, has selected for her ability and natural capability will play, and the character in the "mountain" story, the remainder of the cast, headed by Bernard J. McCrewen as a "foul New York production" will use here.

## HUMORESQUE ALL NEXT WEEK AT EMPRESS

Fannie Hurst's Famous Story Has Been Adopted For Silver Screen

Fannie Hurst's most appealing story "Humoresque" has been transferred to the screen, and will be a feature production at the Empress theatre all next week. The intensely human atmosphere of this novel is said to have been interpreted into the picture with singular success. The story centres around Leon Kantor, a boy of the ghetto, who shows an intense love for music. His mother who has a ways toward a musician in his childhood, and on his seventh birthday buys him a violin. Leon plays it pretty fine. Leon, fifteen years later, is a recognized genius. On the night of his triumph, at a big concert, given for his people of the ghetto, he collapses. Leon returns from France, with a shattered shoulder and it is said that he will never be able to play the violin again. Leon's music is his life, and he becomes morose and discontent. Before the war he had been engaged to Clara, but when he was released from military service, he is referred to full strength and the joy of his mother and Clara, toward new conquests in the realm of music. Anna Rubens, Vera Jordan and Jaston Glass are the feature players in "Humoresque," and it is interesting to note that Jaston Glass of the Empress has arranged for the personal appearance of Mr. Glass every Wednesday and evening, next week.

## NEW EMPIRE OPENS INTO SILENT DRAMA "THE LOVE FLOWER"

Of recent years citizens of Edmonton have heard and just cause to warmly welcome themselves at the Hippodrome and all round excellence of the movie house that results must have been a great success. According to signs who are able to speak with some authority on the matter, Edmonton yields place to no city in Canada in the field of entertainment, the Trans Canada "Theatre" company, determined that all classes of patrons could be pleased, the company has set aside certain films when devotees of the movies may view great features surrounded by all the comforts of the New Empire theatre. The first picture of the series opened a three-day engagement of the New Empire on Thursday evening. The picture "The Love Flower" is one of D. W. Griffith's stupendous productions. The story is familiar to most through its abundance of references to the fact that it was printed in Collier's Weekly. It is a gripping tale of the unfulfilled dream of a girl with the "heart of a Viking" and the simple faith of a child for her father, who dwells in a remote spot, to circumvent the deceptions of a hideous mistake of the past, made himself a victim of circumstance and, incidentally, a fugitive from justice. The scenes are laid in the lush, dreamy world of the very invention of which captures the vision of the language, pervasive atmosphere which captures the picture is so real. There is no picture in the capacity of having had a more beautiful and more lovely scene, but the dramatic tale, her music, her Carl Dempsie, in it, it is a very easy to look at. As the hero, Richard Barthelmess, who all that one could wish and have as a woman as well as a man. He is a very pleasant way of the picture of the old two hours.

## Secrets of the Movies Revealed

Q—In under water scenes which show a diver moving about on the floor of the ocean, do real divers "double" for the actors or do the actors themselves go below to make the picture?

A—Under-water pictures containing scenes with men in diving suits are very seldom faked, nor do professional divers substitute for the actors in these scenes. For instance, in the Robert Joseph underwater pictures and in "Cable West of Master Bruce," a scene depicting a diver's Q—Where does Lucy Cotton live in the hotel Nevada, 70th Street and Broadway, New York City.

A—Lucy Cotton, who is appearing with George Arliss in the screen version of the play "The Devil," lives in the hotel Nevada, 70th Street and Broadway, New York City.

Q—Where was Mae Marsh born and how old is she?

A—Mae Marsh was born in 1877, in Wood, London, England. How many times has Gladys Brockwell been married and divorced? Answer to this question will appear in our next issue.

## SCRATCH MY BACK, REAL COMEDY BY RUPERT HUGHES WILL BE MONARCH ATTRACTION MONDAY

Will be Presented by an All-Star Cast Headed by Roy Barnes and Helene Chadwick, Based on Series of Embarrassments

You wouldn't think there was anything humorous about a man scratching an itchy back, but the new stage play "Scratch My Back," by Rupert Hughes, comedy, which opens at the Monarch theatre for three days, commencing Monday, shows that even the most ordinary of acts can be made into a comedy. The comedy is based on the series that grew out of the embarrassment caused by the itchy backs of Vol. Barnes, played by T. Roy Barnes, and Helene Chadwick, played by Helene Chadwick. Several of the scenes are humorous. One shows how a Chinese waiter kept always at the elbow of a small, nervous, nervous man, constantly scratching and scratching at a long hand. When his back itched he scratched the waiter's hand down to the elbow. Another scene shows a Roman Emperor's wife with what she expects to "bring Latin" might call a "Scratch My Back." It is not very different from the one used by the Chinese man, the "where I look I scratch" is the subtitle for this scene, which shows the emperor's wife scratching the emperor's back, while talking, over with his subjects.

# CHIROPRACTIC

## THE HEALTH SCIENCE

That goes directly to the cause of the majority of so-called diseases is the reason of Chiropractic efficiency, as a drugless health agent; that is why adjustments benefit you when all "treatment methods" have failed.

- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10

Right adjustments at this point will cause so-called headaches, eye diseases, neuritis, epilepsy, vertigo, insomnia, dry mouth, flaccid paralysis, locomotor ataxia, etc.

A slight extension of a vertebra in this part of the spine is the cause of so-called throat trouble, neuritis, pain in the shoulders and arms, girdle, nervous prostration, in grippe, diphtheria, bleeding from nose, disease of lungs, catarrh, etc.

The sacral head marked No. 1 is the part of the spine where the thoracic vertebrae which cause so-called rheumatism, sciatica, pain between the shoulders, back, inflammation of the stomach and bowels, influenza, fever, writers' cramp, etc.

A vertebral subluxation at this point causes so-called heart disease, asthma, pneumonia, tuberculosis, difficult respiration, other lung trouble, etc.

Stomach and liver troubles, enlargement of the spleen, pleurisy and a score of other troubles, so-called are caused by subluxations in this part of the spine, equivalent as light as to remove a splinter by other means the trained Chiropractor.

Here we find the cause of so-called gall stones, jaundice of upper bowels, fever, shingles, diarrhoea, worms, etc.

Bright's disease, diabetes, floating kidneys, skin diseases, both eruptions and other diseases (so-called), are caused by nerves being pinched in the spinal column at this point.

Regulations of such troubles as so-called appendicitis, peritonitis, hernia, etc., follows Chiropractic adjustments at this point.

Why have so-called constipation, renal troubles, asthma, etc., when Chiropractic adjustments at this part of the spine will remove the cause.

A slight tilting of one or both innominate bones will likewise produce slight scoliosis, together with many "diseases" of the pelvis and lower extremities.

The Chiropractors assume that the consequence of mal-positioned vertebral segments, the openings between the vertebrae, through which the spinal nerves pass, are affected; that in this way the nerves are impinged; and that such compression interferes with the passage of vital force to the organs. This condition is called "subluxation" of the vertebral axis, which means that the articular surfaces of these bony units are thrown out of alignment. To re-align these bones the Chiropractor uses nothing but his bare hands to deliver a particular thrust, thus releasing the pressure of harder substances from the nerve trunks to restore normal nerve function.

**Do not stand in your own light when Chiropractic Adjustment will help you:**

**You owe it to yourself, your family and your friends to know how this great science governs your health.**

Do not think that because you have no pain in the back that your spine is in perfect alignment and needs no adjustment. Many people have this impression, but they should go to a Chiropractor who will show them and explain why they need not have pains in their back and still their spine be out of alignment and produce pressure on nerves and cause trouble. Each operator who will show them and explain why they need not be distressed by one or more bones of the spinal column the part to which they look will be diseased.

## Develops Chemical Eye— Will Prove Aid in War

Chicago, Dec. 25.—Development of a chemical eye through which rays of ordinarily invisible light could be seen, and which the discoverer said would prove of great help in warfare, was explained tonight by Prof. Robert W. Woods, of Johns Hopkins University, in an address before the convention of the American Association for the advancement of science, ideas for the advancement of science."

Prof. Woods demonstrated a ma-

chine of his invention which produced ultra violet rays invisible to the naked eye. His audience then followed the rays through a wide area to a receiving device which caused them to become visible and to take on a phosphorescent appearance.

These rays and the detecting device, were the result of the war Professor Woods said, the government asking a group of scientists to produce a light which would be visible to a light plane and not to the enemy. The discovery was made shortly after the armistice, the speaker said.

"Either airplanes, battleships, or

hand forces could use it for signaling," he said.

Also it could be used on aviation fields for night landing. It would point out the landing field, but would be visible only to the planes equipped with the detector.

New Haven, Conn., Dec. 30.—It is announced that a further reduction in the working forces of the New York, New Haven and Hartford railroad will be made next week. The announcement states 2,000 employees will be laid off, "owing to severe decline in the business of the road."

states 2,000 employees will be laid off, "owing to severe declines in the business of the road."

## BIG REDUCTIONS ARE TO BE MADE IN ALL FOOTWEAR

**Announcement is Made from the  
Toronto Offices of Ames Hol-  
den McCready, Ltd.**

Toronto, Dec. 30.—An announcement is made from local sales office of Ames, Holden, McCready Limited, of Montreal, that compared with prices quoted big reductions in wholesale prices of shoes, effective January 3, would be made all along the line in leather footwear to accord with replacement values.

The company has announced that it is basing its prices on a net profit of

The company's plants have been closed down since early autumn, but it is now proposed to re-commence production on an active basis on January 10. An announcement of wages has not been definitely made, but the company's position on this matter is given as follows:

"We feel that our employees are willing to make our shoes for less compensation than the high rates still prevailing.

"We feel that the prices now quoted us for our raw materials have, as is stated by our tanners and other vendors, reached the lowest possible point for some time to come. In fact, leather is now selling much below the cost of production, and probably below costs that will rule during 1921 even with considerably reduced wages."

Considerable sums have been lost by shoe manufacturers in liquidating the stocks of footwear manufactured on the basis of the old materials and wages. The stoppage of production has piled up the overhead costs without bringing in a return, since plants have been at a standstill for months. The new shoe materials are now available, and the manufacturers feel that they must produce their goods on a basis to sell at a price that will appeal to the public.

The stocks of footwear in manufacturers' and wholesalers' hands will be liquidated without loss of time, and the old stocks will go into consumption. The trade feels that shoe business will be on a healthy basis.

For the last few months there has been no definite market price. The holders of shoes have been selling at whatever prices they could secure. By stabilizing the price the Montreal firm in question believes that a normal consumer's demand will assert itself, and there will be enough trade to keep the shoe workers well employed at fair and reasonable wages.

## ARREST MADE IN CONNECTION WITH EDMONTON CASE

### Archibald McLean is Taken At North Battleford on Charge of Seduction

Skatatoon, Dec. 30.—Wanted in connection with the case of Hilda Foote, age 20, of Edmonton, who strangled her new-born child, was found the body in a furnace at a laundry on the corner of Broadway and McLean. It was arrested in North Battleford, Sask., today, and will be returned here for trial. McLean, 23, who has been here for a month, is charged with the crime. A search lasting eighteen months, is alleged to be the father of the Foote girl's child, and is held on a charge of kidnapping.

When the charred remains of the infant was found in the hotel furnace, and the police took Hilda Foote into custody, the case has been a sensation. At the inquest and at her own preliminary hearing, she told how she had been crazed with fear that the baby would be taken from her. The baby was born in Edmonton and was brought to Skatatoon in a suitcase.

A cord had been tied tightly about the neck of the child, and

**GREGORY TIRE AND RUBBER CO.**

**GREGORY TIRE AND RUBBER CO.**

The big new plant of the Gregory Tire and Rubber Company at Coquitlam will be in operation shortly before the end of the year. All the machinery has been imported from England and is valued at \$180,000, and was constructed by the Canadian Ingersoll Rand Company, on designs drawn by Weisman, Seaver, Morgan company, of Akron, Ohio, the largest manufacturers of rubber machinery in the world. The total capitalization of the Coquitlam factory is a million, and a half dollars and \$80,000 stock is fully paid-up. There is \$30,000 worth of raw

This is said to be the finest factory building in Western Canada, and the machinery is the most up-to-date of the kind available. It is expected that as soon as in complete operation the plant will employ about 500 hands, working in three shifts. The total yearly output is estimated at eight millions and will include 150,000 lbs. 300,000 tubes and 300,000 lbs. mechanical goods.

The point will be driven by electric lines from the north, and the eastern Canada Power Company, whose lines pass through the town, is anxious to acquire the plant. It is believed that the company will be torn apart by the competition. You can see the thing there will be a power. The raw material will be insured for a long time, and the same terms and in addition to a nominal flat-rate rate of \$300 per year, the company will be able to get \$40,000 from Comiquan. Ten years of demand of Western Canada for three years, and the company's orders cut out, so it is not a very good thing. However, big orders have been received from the Orient, Australia, and the United States, and it is not indistinct by supplying Western Canada. The amount will be saved freight charges.

The present building to only one of the most of the largest industrial undertakings on the coast. Within five years at least the plant will be completed.

The company has some of the largest factory superintendents in the world.

will do much to guarantee the success of the enterprise. North Gregor will be factory manager. He has devoted many years to the rubber industry, and is a rubber chemist by profession. The factory superintendent is H. O. Kellogg, who started in the Goodyear plant twenty years ago and who has held many important positions. The tire for the Fred Roedel, for six years chief foreman for the Kelly Springfield Tire Company. The mechanical engineer is W. H. Reid, development engineer for the Hood Tire Company for twelve years. The tube foreman

is William Simpson, tube foreman for the American Rubber and Tire Company, for several years. The mill and calendar foreman is M. Nelson, who held the same position in the Goodyear factory for several years.

**Mike's Share**  
The time had come to dole out the day's rations, and in an Irish regiment the quartermaster and his assistant were portioning them out in preparation for distribution.  
At last, just before the orderly men were due to arrive, the assistant turned to the quartermaster.  
"With a twinkle in his eye, Mike said:  
"Av ye plase, sorr, there's a loaf short. Who'll I give it to?"  
"Keep it yourself, M'ke," replied the quartermaster.—London. And wags.

## Executive Council Busy With Program of Legislation To Be Submitted Next Session House

**Telephone Extension Plans for Next Year Likely to Show Decrease from \$4,000,000 Peak Reached This Season.—Liquor Act Not Yet Dealt With by Government.—Proportional Representation System Another Question to Decide.—Opposition Promised in House.**

By holding morning and afternoon sessions, the executive council of the provincial government is steadily working up to the session of the legislature which will be placed before the legislative assembly when the session opens January 1st.

Thus far the provincial ministers have dealt with a number of bills with amendments to various acts as proposed by the various departments. It is likely that a number of bills will be introduced in the session.

The council has also dealt with the change in the administration of the public lands. It is understood, although some action will be delayed until the session, that the government will have a number of amendments to the public lands act.

Decreased Program Proposed. It is understood that the government will have a number of amendments to the public lands act. It is also understood that the government will have a number of amendments to the public lands act.

# NEW YEAR'S GREETINGS

## From The Financial and Business Interests of Edmonton

The Chauvin-Allsopp Creed  
— SERVICE —  
Not only during 1921, but all the time.  
"A life spent worthily should be measured by a nobler life-by deeds, not years."  
— Sheridan.

Chauvin, Allsopp & Co., Ltd.  
Insurance, Real Estate, Rentals, Bonds  
Ground Floor, McLeod Bldg.,  
Phone 9278

WITH BEST WISHES TO ALL  
and a steadfast faith  
in the future.

"We live in deeds, not years; in thoughts, not breaths;  
in feelings, not in figures on a dial;  
We should count time by heart-beats. He most lives  
Who thinks most, feels the noblest, acts the best."  
— Philip James Bailey.

Nor-West Motors, Limited  
10151-3 108th St. — Phone 1524-2543

## IN EXTENDING NEW YEAR'S GREETINGS

the best wish of all is good health. Combined with industry and integrity, this invariably produces prosperity and happiness. With steadfast faith in the future, may all citizens make good progress in 1921.

GEO. H. GOWAN,  
Division Manager, Credit Foncier, F.C.

## THANK YOU!

On Jan. 1st, 1920, we set a new standard in high quality chocolates and flavoring extracts. Your support during the year in helping to build up home industry has been all we could desire. We thank you for this support and extend to you one and all the season's greetings.

Fread's Chocolates, Ltd.  
R. H. CRAWFORD, Managing Director

OUR WISH FOR YOU—  
is everything you could possibly wish  
for yourself

"The best help is not to hear the troubles of others for them, but to inspire them with courage and energy to bear their burdens for themselves, and meet the difficulties of life bravely."  
— Lord Acherley.

Imperial Canadian Trust Co.  
G. A. Holman, Manager.  
Ground Floor, C.P.R. Building.

MAY EVERY HAPPINESS  
BE YOURS DURING 1921

"Be fortified with the belief that life is a great and noble calling; not a mean and dreary thing that we are to shuffle through as we can, not an obstacle and noble destiny."  
— W. H. Gladstone.

Canada Permanent  
Mortgage Corporation  
W. T. Creighton, Manager.  
100th Street — Phone 1522

## HARD WORK, CAREFUL PLANNING AND COOPERATION IS NEEDED

Looking back over 1920 we find that the year opened with conditions prevailing very similar to the previous year. Business while on a very unstable foundation was still apparently flourishing, the false stimulant of extravagant expenditures particularly noticeable after the signing of the armistice being still in full swing.

During the forepart of the year observers were looking ahead with considerable apprehension to the inevitable period when the gulf between abnormal prices of all commodities and the new level wherever that might be would have to be bridged. It was not clear just exactly when this drop would occur, and it was hoped that while for the good of producer and consumer alike, the prices of commodities and therefore the cost of living would come down, it would have been better had this transition taken place in a more gradual manner and the effort was to do just this. Like a stone starting down hill, however, this movement gained momentum until business conditions have been created which are very difficult and will doubtless result in a considerable number of failures with the coincident unemployment.

The market for all commodities might be described as a hesitating market; that is, the public seeing the prices starting to fall are holding back in anticipation of a further drop, and while one would hesitate to encourage anything but very modest expenditures at this time, yet it would seem that careful discriminating buying might now be done for the benefit of all. Great care should, however, be exercised to see to it that wherever possible commodities produced in this country have the preference, as we must keep the wheels of commerce turning to get safely across the trying period in which we now find ourselves. This period had to come, however, and men of resource and determination will welcome the fact that we are in the middle of the fight instead of fearing it as an unknown factor in the future.

We have all been sobered by the events of the last few months, but we may look back upon the past year with the full knowledge that we have come through at least as well if not indeed better than any other nation, and in a world in turmoil this is surely a cause for thanksgiving.

What we need and all we need for the coming year is hard work, careful planning and co-operation, and by co-operation I mean the determination of each and every one of us to stand shoulder to shoulder for the common weal. Given this we may say with great hope indeed—"A Happy and Prosperous New Year."

G. H. LOGIE,  
Manager, Bank of Nova Scotia.

## EDMONTON TO SUFFER LITTLE FROM READJUSTMENT PERIOD

The year just ending was marked by an active demand in the spring for houses at advancing prices, and by a larger amount of building than had taken place since 1914. Owing however, to the uncertainty as to the stability of material and labor costs, several building projects were abandoned for the time being.

The tendency toward the centralization of retail business in the vicinity of First street and Jasper continued through the present year.

We are of the opinion that, because, as a community, we shared little of the prosperity created by war conditions such as stimulated Eastern cities, so we will suffer less from the period of readjustment which is now taking place. The decline in the prices of all farm products has quite naturally created a feeling of quietness in the country tributary to Edmonton, but the curtailing of credits by the banks has largely prevented an over-accumulation of merchandise. Oil developments in the North country will undoubtedly result in a certain amount of activity in Edmonton in the coming spring. The volume and duration of this benefit it is hard to estimate, and will depend upon whether or not further strikes of oil are made.

HYATT COX,  
Manager, Northern Investment  
Company, Limited.

## RENEWED IMMIGRATION WILL GREATLY AID ALBERTA'S POSITION

In common with the rest of the world we are experiencing the difficulties of readjustment but as well as we are able to make comparisons in such matters, there seems to be no place in Canada, and that means nowhere in the civilized world, that is in a better position than we are, if there is any as good. We had very little artificial prosperity to lose, and should quickly and easily recover from the low point. We have naturally been disappointed in the return from our crops owing to marketing and transportation delays and difficulties but the bulk of the crop is still there to be sold and will in time, even at present prices, produce very substantial sums to form the fundamental income for the business structure of this city and country.

All authorities seem to agree that we are on the eve of renewed immigration on a large scale. If this materializes in the spring the depression which we are experiencing in common with the rest of the world, but to a minor degree, may easily be converted into a real retirement of our position over that at any time since the collapse of the pre-war boom.

H. M. E. EVANS
